I just read a telling article by Jeff Jenkins about a terrible disease and about one even more frightening. People around the world are afraid, anxious, and concerned. The coronavirus has been called a pandemic virus. Schools around the world have closed. Christian Universities are sending their international students home early. Airlines are canceling flights, and countries are closing their borders. Lives have been lost and people have been quarantined. Some say it could be the most harmful virus we have seen in years.

There is another disease about which we know much more. It is infinitely more deadly. It infects and affects people on every continent, in every country in the world. It reaches from the largest metropolitan cities to the smallest villages. This disease harms individuals, divides families, and even causes wars between nations. The Bible calls it "sin." No government agency, no drug company, no CDC precautions, no hand washing, no quarantine laws, and no individual has a cure.

There is a known cure, a proven cure, one which can cure those who have the worst case of the Sin virus. the only answer, the only solution, and the only way to be protected from the sin virus is Jesus. Dr. Michael Moss
