

# Church on the Hill

Geoffrey Njoroge - Meru, Kenya.  
August/September 2016.

# ..time to relocate

- I started the Machegene congregation last year.
- The congregation has been meeting in a rented building at the local market place.
- Finally we have leased a piece of land and built a temporary church building away from the market place.
- I have studied the Bible with a man called Jeremiah since my return from Ethiopia.
- Jeremiah now preaches in my absence.

...up the hill

- Jeremiah and I walking to the new location.

...the Church building on the hill.

...some food after the service.

...with some ladies and some men.

...with the men of the congregation

# Hopefully,

...we will be able to complete this Church building by putting in place the doors and windows.

...we will be able to purchase plastic chairs and replace the wooden benches soon.

...We will be able to hold our planned campaign when schools close in October and teach the public about the New Testament Church...please help us pray.
